

Rolling ball tack tester

The rolling ball tack tester is applied in tack tests on pressure sensitive adhesive tapes, adhesives and adhesive products and meets the PSTC and ASTM standards.

It is a fast and economical method for tack determination. This method quantifies the speed of which an adhesive adheres to another surface.

Features

- Fast and economical method
- Meets the standards

Technical details

Steel ball	11 mm \varnothing
Dimensions	19 x 8 x 7 cm
Weight	0.5 kg

Standards

PSTC 6 · EN 1721 · ASTM D3121
